

INDUSTRIAL CLEANING & MECHANICAL SERVICES (ICMS)

When it comes to industrial maintenance and cleaning of onshore and offshore facilities, time-efficient, cost-effective, environmentally sound solutions are required. CIC delivers on these requirements by providing specialist services incorporating state of the art technologies and innovative solutions. We offer a comprehensive portfolio of maintenance services that are grouped into:

- *Pre-Commissioning Service (which includes heat exchanger services and repairs, chemical cleaning and decontamination, mercury management, high water jet, and industrial cleaning, tank cleaning and repairs, decommissioning and pipeline services.*
- *Shutdown and Turnaround Services*
- *Mechanical Services*
- *Chemical Cleaning Services*
- *Mercury Management Services*
- *Catalyst Services:*
 - *Our services support catalyst handling on all reactor types, including mechanical work on internals for removal and re-installation if required, customizing a solution to your needs by applying different methods for unloading and loading your reactors. We also provide advance equipment like vacuum units, filters, cyclones, screening machines and de-dusting equipment for all catalyst handling applications.*
